The performance data quoted represents past performance, which is no guarantee of future results. Share price and investment return fluctuate and an investor's shares may be worth more or less than original cost upon redemption. Month-end returns provided above reflect the fund's current performance.

Investors should consider the investment objectives, risks, charges, and expenses of the fund carefully before investing. Please obtain a prospectus that contains this and other information about the fund, including the eligibility requirements to purchase the fund's share classes, and read it carefully before investing. To obtain a prospectus, Private Wealth Management Clients may contact their account officer or may call 1-888-281-7350; Mellon Private Wealth Brokerage Clients may contact their financial representative or may call 1-800-830-0549--Option 2; and other investors may call The Dreyfus Corporation at 1-800-645-6561.

An investment in a money market fund is not insured or guaranteed by the Federal Deposit Insurance Corporation, or any other government agency. Although a money market fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in a money market fund. As a measure of current income, seven-day yield is more reflective of the fund's income generating ability than total return. Performance information may reflect historical or current expense absorptions, without which performance would have been lower. For information on current absorptions, please see the fund's prospectus. For information on historical expense absorptions, Private Wealth Management Clients may contact their account officer; Mellon Private Wealth Brokerage Clients may contact their financial representative; and other investors may call The Dreyfus Corporation. Share classes are subject to different sales and distribution charges. You should discuss with your account officer, financial advisor or Dreyfus about your initial investment amount, time horizon, and other relevant factors in selecting a share class for investment.

*Reflects the performance of each fund's predecessor common trust fund (CTF) through October 1, 2000 and the fund's performance thereafter (other than for Mellon Emerging Markets Fund, Mellon Balanced Fund and Mellon National Short-Term Municipal Bond Fund, for which there is no predecessor CTF). For more information pertaining to the CTFs, please see the fund's prospectus.
