

BNY MELLON'S ENVIRONMENTAL SUSTAINABILITY POLICY STATEMENT

BNY MELLON'S SUSTAINABILITY PROGRAM WAS ESTABLISHED IN 2007

This policy, which applies to BNY Mellon's global operations, includes:

- Managing our direct environmental impacts through the continual maintenance and improvement of our Corporate Environmental Sustainability Strategy;
- Periodically reviewing and revising this Environmental Policy Statement to reflect changing conditions and information;
- Complying with applicable law, including environmental laws, of the countries in which we operate;
- Complying with the requirements of voluntary environmental programs to which we subscribe;
- Ensuring the mitigation of pollution and the continual improvement of our environmental performance;
- Setting targets on our key environmental efforts and reviewing them periodically; and
- Publicly and transparently reporting on our environmental performance and reviewing our progress annually.

BNY Mellon, the global leader in investment management and investment services, is focused on helping clients manage and service their financial assets. BNY Mellon's sustainability program was established in 2007.

AT BNY MELLON, WE HAVE ADOPTED A DISCIPLINED, HOLISTIC APPROACH TO ENVIRONMENTAL SUSTAINABILITY FOUNDED ON TEAMWORK, INNOVATION AND EXCELLENT RESOURCE MANAGEMENT.

Our commitment to corporate social responsibility includes the environmentally prudent management of our facilities and operations around the world; collaboration with suppliers to improve our indirect environmental impacts; environmental programs and education for employees; green investments and socially responsible products offered to clients; and acting as a facilitator to help all market participants meet the challenges and seize the opportunities presented by the environmental markets.

BNY MELLON STRIVES FOR OPERATIONAL EXCELLENCE TO IMPROVE EFFICIENCY, REDUCE RISK AND DELIVER THE HIGHEST SERVICE QUALITY.

We have and will continue to implement processes and capital projects to deal with the risks of the changing climate. We see an opportunity to drive growth by aligning our businesses, product development, innovation initiatives and solution sets around key industry segments.

BNY MELLON

OUR ENVIRONMENTAL SUSTAINABILITY COMMITMENTS

- Continue to globally measure, monitor and reduce our electrical energy consumption and associated greenhouse gas emissions against a 2008 baseline at tracked properties under company control
- Incorporate sustainable design into new and retrofit construction projects, as well as operations and maintenance programs to improve efficiency and environmental performance of our offices
- Monitor, measure and reduce our water consumption through improved water efficiency at properties under company control
- Increase quantities of waste diverted from landfill, through increased recycling and alternative waste management solutions
- Collaborate with key suppliers to increase purchase and use of products/ services that reduce our indirect impacts on the environment
- Increase sourcing of recycled and sustainably sourced products and materials
- Track, measure and decrease our global paper consumption through reduction programs and technology efficiencies
- Develop an education program to raise employee awareness of environmental issues and promote responsible behavior, thereby helping employees to positively impact the environment in their work lives
- Develop global capabilities to provide the services needed to help the environmental markets grow and mature
- Reduce greenhouse gas emissions associated with our global corporate business travel
