Brexit: Outlook for the Months Ahead

- Growing pressure on UK PM Theresa May to “clarify” her departure timetable
- Risk of a general election remains significant
- GBP has proved sensitive to political regime shifts over past 50 years

With a great deal of uncertainty continuing to cloud the UK political outlook and GBP stuck to its post-referendum average against the USD, this is an appropriate point to consider some of the issues that might come into play over the remainder of the year.

In this in-depth Markets Update, we delve into the issues facing the UK government and GBP in the months ahead, including:

- The ongoing cross-party talks to break the Brexit impasse in the UK Parliament
- The impact of the European election taking place on May 23
- The growing pressure on UK Prime Minister Theresa May to stand down as leader of the Conservatives
- The latest polling on the likely outcome of a general election
- And the conclusions that can be drawn from the performance of GBP during prior episodes of political upheaval in the UK.
