Hello. I'm Hans Brown, Head of Enterprise Innovation and CIO for Corporate Technology here at BNY Mellon.

Innovation is what moves us forward, and it requires us to think differently, collaborate with intention and intensity, as well as challenging the common assumptions about what truly is possible. Innovation is how BNY Mellon has been able to thrive for over 200 years, bringing new ideas, products, services to the market that help our clients succeed and enable a resilient global financial system.

We also firmly believe in investing in each other's success and drawing strength from all of our differences.

An environment of trust and belonging really inspires and generates confidence to support us, to think bigger and bolder, fueling our innovation and driving our courage to lead so we can all achieve great things.

I hope you will consider joining our team of innovators at BNY Mellon, where you'll have countless opportunities to grow your skills, experience new ways of working, and never stop learning.
