

DIGITAL ASSETS

September 2021

From *Day One*

We've been putting our clients first

By revealing unseen value

And innovating at every step

Now we're uncovering the vast potential and possibilities

Of digital assets for our clients

That's why we were the first global bank to announce plans

To launch a secure and integrated platform

For *transferring and safekeeping* digital assets

With institutional-grade infrastructure

And a risk-management approach

We plan to provide *real* stability

In a *digital* world

And a platform

That places your digital assets | Next to your traditional ones

Giving you a more holistic view of your investments

As digital assets *continue* to evolve

You'll *continue* to need

- perspective
- understanding
- clarity
- integrity
- security
- responsibility

Because digital assets are about more than just *technology*

Digital assets are about *innovation*

And *innovation* is exactly where we excel

Welcome to the new era of digital assets
From the bank that re-imagines the way the world does business
