

WE PROTECT THE PLANET FOR FUTURE GENERATIONS

Hani Kablawi, Chairman of International
June 2021

So, my light bulb moment from an environmental perspective came when my then 16-year-old daughter held me and my entire generation accountable for global warming, rising sea levels, rising temperatures, and natural disasters which were on the increase. And I felt very strongly that if I wasn't part of the solution, I was part of the problem. And I needed to do something about it. And in my role as a Senior Manager at BNY Mellon, I wanted to make sure that we consider climate at BNY Mellon and that we provide solutions that help clients think through their own carbon footprint, and greenhouse gas emissions, and other environmental factors.
