**June 2017**

For over two centuries, BNY Mellon has been constantly innovating to drive and navigating change in the shifting global markets.

We harness emerging technologies every day to manage risk responsibly and delight clients. One of our most transformational investments is NEXEN, BNY Mellon's digital ecosystem that is improving client experience and system performance. One component utilizes big data to track trends and enables us to work with clients to prevent future fails in operations.

We're also fostering a strong risk culture. 96 percent of our employees say they are aware of risks relevant to their work. Our unquestioned integrity and innovative risk management are essential to maintaining stable, resilient operations for our clients, the markets and the world.
