

WE ARE EMBRACING FIVE TRENDS THAT ARE CHANGING THE WORLD

June 2017

At BNY Mellon, we are embracing five trends that are changing the world.

1. **Accelerating technological advancements** - The transformative power of digitization is turbo-charging progress. We harness emerging technologies every day to enhance operational performance, and delight clients with market-leading solutions.
2. **Rapidly shifting globalized markets** - Globalization has increased market efficiency and wealth distribution, but with the world increasingly interconnected, it is vital that we manage risks to support market integrity and world economies.
3. **Gender equality for global development** - Sustainable economic growth is possible only when women are equal. Our diversity and inclusion programs and social investing initiatives promote gender equality within and outside our four walls.
4. **A changing global workforce** - Employees today want to work for diverse, collaborative companies that value them as people and make a positive impact on society. We invest in helping all employees reach their full potential.
5. **And the impacts of climate change** - BNY Mellon contributes to climate change mitigation in our everyday operations. With our global scale, we can make an even bigger impact by supporting social investing solutions that enable low-carbon development.

With the world rapidly evolving, BNY Mellon is driving and responding to change in the world. Explore our CSR Report to learn more.

BNY Mellon is the corporate brand of The Bank of New York Mellon Corporation and may be used as a generic term to reference the corporation as a whole and/or its various subsidiaries generally.
