

Protecting the Markets through Risk Culture

Everyday decisions count.

We Act¹

Received a suspicious email

I used the easy “report email” feature to flag my concern.

We Protect Clients and Markets

Stopped a cyber attack and secured client data

Reviewed a new product idea

I referenced the company’s risk appetite to evaluate it.

Prevented too much risk from entering the market

Discovered an error

I spoke to my manager and shared what I learned with my team.

Minimized potential client impact

Asked to approve a transaction

I reported a concern because something didn't seem right.

Prevented fraud

We Impact the World

More Stable Markets

Because our company is important to global financial stability, our individual actions collectively have big impacts

Better Livelihoods

Stronger Economies
